

KODAK PROFESSIONAL Film Preannounced Discontinuance

KODAK is pre-announcing the discontinuance of several small running film items. Demand for these products has been declining significantly in recent years and it is no longer practical to continue to manufacture them, given the low volume.

Remaining stocks of the discontinued items will be sold until inventory is depleted, at which time the discontinued items will be removed from the KODAK PROFESSIONAL Stockhouse Equipment and Supplies Price Catalog.

Please note: Only the listed SKUs are being discontinued. All other films and/or formats of the film types shown below, will NOT be discontinued and continue to remain available.

The discontinued items and suggested replacement products are listed below.
