

FILM PHOTOGRAPHERS ASSOCIATION

We are dedicated to the traditional photographic techniques of all types of film photography but especially color slides and B&W prints.

We value and wish to sustain the long history of artistry and image quality that the medium of film has brought to the visual arts.

We hope our efforts will help support other film photographers in their desire to continue shooting film.

We will share our own work and the work of other traditional photographers by offering slide and print programs for instruction and for entertainment.

We regard competition as a means of improving our work, reaching our potential, and as a forum where diverse approaches to visual communication can be shared.

We encourage creativity in all types of film photography.
